

On/Off Digital Duct Humidistat HSP-2573984

CLEAN COMFORT™
INDOOR AIR ESSENTIALS

The HSP-2573984 control is designed for mounting on the HVAC system's return ductwork to accurately control the relative humidity in a zone or space. It can be configured for either humidity control or as a high limit safety device. An optional remote sensor (part number HSP-2573987) can be used for outdoor temperature setback of the humidity control setpoint to prevent condensation in windows and building structures.

Features:

- 24 Vac On/Off control
- Single speed fan support
- Password protected programmable user and control parameters
- Accuracy of $\pm 5\%$ RH
- No loss of set parameters when returning from power failure

Power Failure

Upon power-interruption, all parameters and setpoints are memorized in non-volatile memory and therefore do not have to be re-entered again.
