

DRT900

One of the few dual rotating tillers on the market, the Husqvarna DRT900 offers the advantages of both a forward rotating cultivator and counter rotating deep soil tiller. The 9.0 gross torque engine is powerful and able to handle the conditions a homeowner might experience. The DRT900 has a sealed transmission for long life and a sturdy frame.

COUNTERWEIGHT

For safe and sturdy operation. The counterweight increases weight on the wheels and improves balance.

POWER FORWARD AND REVERSE

One gear forward and one reverse, for easy operation, maneuverability and transport.

AGRICULTURAL TIRES

Heavy treads provide better grip in cultivated and muddy soil.

DRAG BAR

Easy-adjust drag bar, for balance in different working conditions.

Features

- Reverse gear for optimum maneuverability
- Powerful overhead-valve engine

TECHNICAL DATA	
Engine manufacturer	Briggs & Stratton
Engine type	900 OHV Series
Gross Torque	9 lb-ft
Cylinder displacement	205 cc
Rotational speed	190 rpm
Fuel Tank Volume	3 qt
Transmission type	Chain Gear
Transmission steps forward	1
Transmission steps reverse	1
Cultivator type	Rear-tine
Working width	17 inch
Working depth	6.5"
Depth adjustment steps	7
Vertically adjustable handlebar	Yes
Handlebar-mounted gear selection	Yes
Reverse gearbox	Yes
Drag bar	Yes
Counter-rotating tines	No
Forward-Rotating Tines	Yes
Tube Bumper	No
Weight	200 lbs
