

**CAMPBELL
HAUSFELD**
BUILT TO LAST

Classic Finish
HVLP Paint Sprayer

COMPRESSOR
NOT REQUIRED

HV2500

5 PSI • 58 CFM

2-stage Ametek turbine
50 ft. Max. hose length
1 qt. canister

Semi-professional spray gun

- Durable construction delivers consistent coverage with no brush strokes
- Metal pattern adjustment; can create round, vertical or horizontal spray patterns
- Metal air flow control can adjust pattern from 1/4" to 6"
- Metal material flow to obtain proper adjustment for light through heavy materials

Durable metal housing

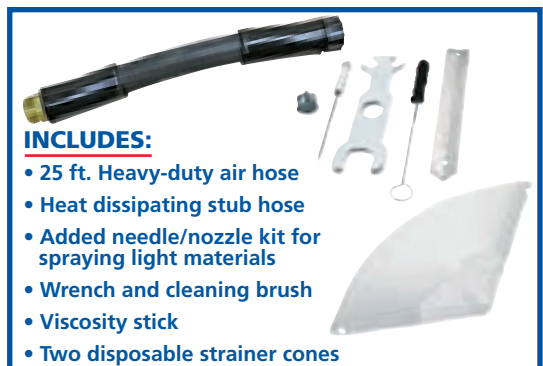

- Built-in accessory storage keeps tools handy
- Two large filters prolong turbine life

High performance, two-stage turbine motor

- Plenum chamber reduces operational noise
- Maintains 50% less overspray than conventional (non-HVLP) spray guns

Great for restoration projects

INCLUDES:

- 25 ft. Heavy-duty air hose
- Heat dissipating stub hose
- Added needle/nozzle kit for spraying light materials
- Wrench and cleaning brush
- Viscosity stick
- Two disposable strainer cones
