Features and Benefits

212cc OHV engine

Cast iron impeller and volute

Silicon carbide seal

Aluminum pump housing

Corrosion-resistant aluminum pump housing

Product Specifications

Equipment Type	Pump (Trash)
-----------------------	--------------

Discharge Capacity	197 Gal/min
---------------------------	-------------

Discharge Port Diameter	3 In. Npt
--------------------------------	-----------

Displacement	212cc
---------------------	-------

Dry Weight	92.4 Lbs
-------------------	----------

Engine	Dh212
---------------	-------

Engine Brand	Powerhorse
---------------------	------------

Fuel Capacity for Burner	2.9 Gal.
---------------------------------	----------

Impeller	Cast Iron
-----------------	-----------

Mechanical Seal (Pump Case/Impeller)	Silicone Carbide
---	------------------

Motor Power	6 Hp
--------------------	------

Pressure	36 Psi
-----------------	--------

Pump Type	Full Trash
Run Time	6 Hrs
SKU	750127.POW
Solids Handling	1-1/8 In.
Suction Head Lift	23 Ft.
Suction Port Diameter	3 In. Npt
Total Head Lift	82 Ft.
